RECEIVED
JUL 06 2012
DEPT OF ECOLOGY
BELLINGHAM FIELD OFFICE

Attn. Ann Wessel:

I own 5 acres at the end of Community Lane off Woodcock Rd in Sequim (joint ownership with sister Sylvia) (Parcel 7 Survey V3P21 N2SWSWNW 5.01 A) owner ID 22545

The 15 pages acquired off The Internet is such an overview of vague, non specific, generalization it leaves an affected property owner unable to determine the actual impact.

I have no problem with the need to address the water issues of the area — but when government impacts a landowner there is a responsibility to indicate precisely that impact.

If I wished to build a single family dwelling on the above property to include a modest summer garden just exactly what I would need to do & what it would cost. Please, no wishywashy maybe this or maybe that. For your information, my neighbor has an artisian well. My 5 a. is the only plot that size, has no well, but does have an orchard.

Thank you for being direct & specific to my request.

Sincerely
Dale A. Durrwachter [redacted]
