Final 2015 Orphan Brand Returns
Washington State Electronic Products Recycling Program 3/20/2015

Below is a list of brands that appeared in the Return Share sampling conducted in 2014 for the E-Cycle Washington program that were determined by the Department of Ecology (Ecology) to be "orphans." An orphan is a covered electronic product that lacks a manufacturer's brand, or for which the manufacturer is no longer in business and has no successor in interest, or is a brand for which Ecology cannot identify an owner.

The 40,320 lbs of orphan products accounted for 6.25% of all covered electronic products sampled through the E-Cycle Washington program in 2014. The responsibility for recycling orphan products is distributed proportionally among all identified manufacturers.
