Jon,

The email below is from a Richland resident. She was having trouble with the email address on the permit and asked that I forward it on. The adult mosquitoes are out a couple weeks earlier than last year, so we have a busy year ahead of us. See you on Tuesday.

Subject: Alter mosquito permit

I would urge the alteration of the writing of the mosquito control permit to read:
"The Permittee is authorized to discharge incidental amounts of adulticides and their residues to waters of the state for nuisance and vecotr mosquito control."

Mosquito breeding and existing in, and very near waters, of the state are no less apt to carry disease than mosquitos in any other areas of our state.
