Subject: Mosquito Control Spraying
Date: Monday, March 01, 2010 11:10:33 AM

Mr Jennings;

We, in Cowlitz County are wondering why we have been singled out as one county not worthy of the spray to rid us of the pesky disease carrying mosquitos that will prevent any of from enjoying the outdoors this spring and summer?

Who determines which ones carry disease?
What about the little ones that will suffer from the discomfort and possible infections from getting stung?
Please reconsider this bad decision and let us enjoy our great Northwest this year.

Sincerely,

Mr & Mrs Carl Cole
Longview, Wa.
