Jon Jennings, it has been explained to me that if new rules proposed by Washington State Department of Ecology go into effect that our local mosquito control won't be able to service the area where I live. My house sits about 150 feet from one of the Kennewick Irrigation District's irrigation ponds which is fed from water of the Yakima river. If we can't control the mosquitos, I'd have to move and take a huge loss on my house.

Please alter the permit to read "The Permittee is authorized to discharge incidental amounts of adulticides and their residues to waters of the state for nuisance and vector mosquito control."

Thank you,

Tom Mitchell
