1.0 Introduction 1
1.1 Site Description 1
1.2 Project Scope and Study Objectives 1
1.3 Document Organization 2

2.0 Data Collection and Analytical Methods 4
2.1 Sampling Platforms 4
2.2 Sediment Profile Imaging 4
2.2.1 Sediment Grain Size 5
2.2.2 Prism Penetration Depth 5
2.2.3 Surface Boundary Roughness 5
2.2.4 Apparent Redox Potential Discontinuity Depth 5
2.2.5 Infaunal Successional Stage 5
2.2.6 Organism-Sediment Index 6
2.2.7 Benthic Habitat Categories 6
2.3 Surface Sediment Samples 11
2.3.1 Chemical Analysis 12
2.3.2 Toxicity Testing 12
2.4 Subsurface Sediment Cores 13
2.4.1 Chemical Analysis 13
2.4.2 Radioisotope Dating 13
2.5 Fish, Clam, and Crab Tissue 14
2.6 Aquatic Habitat Types 14

3.0 Data Results 32
3.1 SPI Survey Results 32
3.1.1 DUA 2 32
Grain Size 32
Prism Penetration Depth 33
Small-Scale Boundary Roughness 33
Apparent Redox Potential Discontinuity Depths 33
Infaunal Successional Stage 34
Organism-Sediment Index 34
Benthic Habitat Type 34
3.1.2 DUA 3 38
Grain Size 38
Prism Penetration Depth 38
Small-Scale Boundary Roughness 38
Apparent Redox Potential Discontinuity Depths 38
Infaunal Successional Stage 39
Organism-Sediment Index 39
Benthic Habitat Type 39
3.1.3 DUA 4 43
Grain Size 43
Prism Penetration Depth 43
Small-Scale Boundary Roughness 43

Apparent Redox Potential Discontinuity Depths 43
Infaunal Successional Stage 43
Organism-Sediment Index 44
Benthic Habitat Type 44
3.2 Surface Sediment Chemistry 69
3.2.1 Sediment Conventional Parameters 69
DUA 1 69
DUA 2 69
DUA 3 69
DUA 4 70
3.2.2 SMS Chemistry 70
DUA 1 70
DUA 2 70
DUA 3 70
DUA 4 71
Elevated Quantitation Limits 71
3.2.3 Dioxin/Furan Congeners 71
3.2.4 Organotins 74
3.2.5 Archived Surface Sediment Samples 74
3.3 Biological Testing Results 84
3.3.1 Bioassay Water Quality Results 84
3.3.2 Negative Control and Reference Sediment Performance Results 86
3.3.3 Positive Control Results 89
3.3.4 Amphipod Mortality Bioassay 89
3.3.5 Larval Development Bioassay 95
3.3.6 Juvenile Polychaete Growth Bioassay 101
3.3.7 Summary of Bioassay Results 106
3.4 Subsurface Sediment Cores 110
DUA 1 110
DUA 2 110
DUA 3 110
DUA 4 110
3.4.1 Archived Subsurface Sediment Samples 111
3.5 Radioisotope Dating and Biological Mixed Layer Depth 112
3.5.1 Sedimentation Rates and Dating 112
DUA 1 112
DUA 2 112
DUA 3 112
DUA 4 113
3.5.2 Biological Surface Mixed Layer 113
3.6 Tissue Collection 115
3.6.1 Trawl Samples 115
3.6.2 Crab Pots 115
3.6.3 Bivalve Collection 116
3.7 Aquatic Habitat Types 117
DUA 1 117
DUA 2 118
DUA 3 118

DUA 4 119

4.0 Data Validation 124

5.0 Data Summary and Recommendations 128

5.1 DUA 1 128
5.2 DUA 2 128
5.3 DUA 3 129
5.4 DUA 4 129

6.0 References 133

Appendix A Station Coordinates
Appendix B Sample Logbooks
Appendix C SPI Images
Appendix D Surface Sediment Chemistry Summary Tables
Appendix E Subsurface Sediment Core Logs
Appendix F Biological Laboratory Report
Appendix G Radioisotope Data Report
Appendix H Data Validation Reports
Appendix I Analytical Laboratory Reports
Appendix J Sampling and Analysis Plan
