WATER QUALITY PROGRAM

I would like the wording "Adulticides & their residues used for nuisance mosquito control must not be discharged to waters of the State." - to be removed and the permit to read: The permittee is authorized to discharge incidental amounts of adulticides & their residues to waters of the state for nuisance and vector mosquito control.

I have lived in my home for 20 yrs and in the spring and beginning of summer the mosquitoes are so back we can't even sit in our yard. This is the most beautiful time of year to be outside and we can't do that. If the permit wording is not changed I can't imagine how bad the pesky mosquitoes will get.

Please consider the wording change.

Thank you
