

# GreenVantage

## The GreenVantage Program

### Helping Municipalities Recycle & Save

Call2Recycle® has launched a new program to help municipalities recycle rechargeable batteries. As part of our commitment to safely and efficiently collect, transport and recycle the batteries received throughout the United States and Canada, we operate in compliance with the safety and shipping guidelines set forth by the U.S. Department of Transportation (DOT). Yet for many municipality participants this is often a time-consuming and labor intensive process. In an effort to help support the battery recycling needs within your community, we have developed a program exclusively available to municipalities.

**The GreenVantage Program** is a cost-saving solution only available to a select group of U.S. municipalities addressing these challenges. At Call2Recycle, we understand that municipality budgets have been cut and resources are stretched – and we want to help you offset costs associated with operating a rechargeable battery recycling program. The GreenVantage Program provides an allowance to municipalities to assist and account for labor costs associated with providing a rechargeable battery recycling program to residents.

call2recycle.org

### Benefits of Call2Recycle's GreenVantage Program:

- ✓ Save Thousands of Dollars – Subsidize Your Recycling Efforts
- ✓ Detailed Tracking & Reporting, including Certificates of Recycling
- ✓ Responsive Customer Service
- ✓ E-Stewards Qualification by the Basel Action Network (BAN)
- ✓ Full Compliance with U.S. DOT Regulations

### How Does it Work?

- 1** Your municipality enters into an agreement with Call2Recycle to utilize its program for rechargeable battery recycling
- 2** Using its bulk shipping program and carrier of choice, Call2Recycle will transport and recycle your municipality's rechargeable batteries
- 3** Call2Recycle agrees to offset municipality's costs

### How to Join?

To enroll, contact Sean Burchill at **(678) 218-4576** or [sburchill@call2recycle.org](mailto:sburchill@call2recycle.org)
