Comments:

We live on Quincy Rd facing the water areas, without adulticiding the mosquitoes both vector & nuisance would become pandemic and uncontrollable. Even now swarms are terrible before they start their fogging. The monies for the CMCD should be spent on fogging in residential areas, parks & recreation areas to protect the public. If we can't use the parks & fishing holes, and our own yards because of mosquitoe that carry disease and fly in your nose and mouth and bite you, causing bumps and swelling and making life outdoors miserable then the monies are being spent in the interest of the people who reside in this area. Stop trying to fix something that isn't broken. Leave our mosquito control alone!
