Ms. Bouta,

A small comment on the proposed rules. On page 16 of OTS-3376.2 it has the additional text *Ecology's written notice of final action*. Having just been through that part here at the City of Spokane -- The City was responsible for publishing the notice of final action; maybe you have made that change also in the WAC and I missed it. A small point but important since it establishes the appeal period.

Good Luck with your project,

Tirrell Black
