Washington State Department of Ecology,

To Whom It May Concern,

I write to urge you to allow mosquito districts to spray for adult mosquitoes. Our local mosquito control district has done a very good job of managing mosquitoes. Please let common sense prevail and allow them to continue to do their jobs as they have done in the past. The state Department of Health has already made a good argument for allowing this type of spraying. Please listen to the voice of reason.

Sincerely,

Kerry Lewis
