Subject: Mosquito Spraying in West Richland
Date: Friday, March 05, 2010 6:53:26 AM

I cannot believe you may stop the spraying of mosquitos in our area. I get eaten alive now, let alone with no spraying at all. i have bad reactions to insect bites and it's very miserable for me. Also with West Nile virus in our area, people could get it and pass away!

What are you thinking?

Thank you,

Margee' Morris
