Jon Jennings Mosquito Control Permit Comments
Washington State Department of Ecology
Water Quality Programs
P.O. Box 47600
Olympia, WA 98504

Dear Mr. Jennings,

I am concerned about the rise in the mosquitoes in our neighborhood. Last year (2009) was a very bad summer with lots of mosquitoes in our area. My wife and I, as well as my other neighbors, were unable to enjoy having dinner outside or any other activities on an average day. It is impossible to mow my lawn or my large field without getting at least 50 "bites" (no exaggeration)
Of my near neighbors, four of us have a severe reaction to their "bite" with the reaction lasting several days.

There are two breeding areas that we know of near us: one to the north, along Lane rd and one to the south along Cloverdale rd with standing water in the summertime that have a green slime covering them. If the wind blows either from the north or from the south, we get inundated with mosquitoes. We would like these ponds sprayed, along with another areas that you feel would be needed to control these adult mosquitoes.

At the time of writing this letter, there are adult mosquitoes now in our area.

I am also enclosing a scanned PDF document from our neighbors.

Thank you for your consideration.

Wayne & Margo Thelen
545 Lane Rd, Woodland, WA 98674

My other concerned neighbors;
Dirk Muyskens - 533 Lane Rd
Darlene Homa - 533 Lane Rd
Gary & Kathy Shelton - 541 Lane Rd
George & Jan Abbot – 531 Lane Rd
Rick Homer – 601 Lane Rd
Art & Kirsi Malone – 546 Lane Rd
Don Nail – Neighbor & Property Owner
