From: Patterson, Gene
To: Jennings, Jonathan (ECY);
Subject: Aquatic Mosquito Control NPDES Permit
Date: Tuesday, February 16, 2010 3:32:27 PM

Mr. Jennings

The following are my comments:

S3.C.1.a: What does “direct management responsibilities” mean for the use of pesticides during application**?**

S6.A. and B: Is a public notice and posting required each year to apply Bacillus thuringiensis israelensis larvicides? Also, can the public notice be via email and/or a web site posting rather than in a newspaper?
