**Re: Partial Response to Department of Ecology's Request for Additional  
Information Related to Centralia Power Plant Emissions**

Dear Mr. Newman:

On behalf of TransAlta Centralia Generation LLC ("TransAlta"), I have enclosed responses to Questions 1 and 3 of your letter to Mr. Richard DeBolt, dated January 5, 2010, related to the proposed BART determination. The responses were prepared by CH2M Hill, which prepared the Centralia Plant's BART Analysis (July 2008). As clarified in our recent phone conversation, the response to Question 1 consists of larger copies of the SCR drawings from the July 2008 BART Analysis showing dimensions and distances.

We will forward responses to the other questions as soon as they are completed. Please contact me if you have questions regarding this information.

Sincerely,

Richard L. Griffith
