Subject: 12-(303[d]) List Information - "User Study ID" and "User LocationID"

Hello,

I am in the process of reviewing the new draft listings and would like to review some of the source studies. Could you tell me how to find the reference reports/studies that contain the data that the draft listings are based on? Does Ecology have a web accessible data base?

Specifically, I'd like to be able to find out more information (or the report) listed under EIM for "User Study ID" and "User Location ID" on the "View Listing" form.

Any guidance as to how to locate this information would be appreciated.

Thanks,

Ingrid Wertz
