**Subject:** 18-Water Quality Assessments [303(d)] Information

---

## **What beneficial uses are permitted in 303d waters?**

**I've been told that in a waterway classified as Category-5 because of fecal coliform, swimming, kayaking or any other activity that risks contaminated water getting into one's mouth is not allowed.**

**If there are such restrictions, please cite the RCW, WAC or WDOE policy manual that contains same.**

**Thank you. :)**
