Hello Susan and/or Ken-

I've been using the interactive mapping for the category listings and I was wondering if there was any way that I would be able to print off a map with all the categories highlighted for specific WRIAs. Specifically. I am able to view them if I zoom in real close - but I would like to be able to print off a map for each WRIA that has all the colors/categories highlighted (with the stream names). I think that would be the best reference tool for me right now.

Thank You-

Jennifer
