

#### **APPENDIX 4 - EXISTING DISCHARGERS TO IMPAIRED WATERS**

Appendix 4 is a list of existing permittees that discharge pollutants of concern, either directly or indirectly, through a stormwater drainage system that connects to an outfall. The pollutants then enter waters that are listed as impaired, based on the EPA-approved 2012 water quality assessment (Category 5). The pollutants may also enter *Puget Sound Sediment Cleanup Sites*.

Please use this link to see the list of permittees:
