

Figure I-8: Historical Orchards in Yakima County Circa 1947

EXAMPLE

Legend

-  State or federal roads
-  1947 Orchard lands
-  Cities

Disclaimer:

This map should not substitute for a site-specific assessment. Not all of the areas identified on the map will actually have elevated levels of arsenic and lead in soil. Some properties outside of the identified areas may have elevated levels of arsenic and lead in soil.

This figure was originally developed in 2000 by the Yakima County Geographic Information Services. It is based upon an analysis of historical aerial photographs and is intended to provide a general indication of where historical orchard areas were located in 1947, so individuals and communities can assess whether to look in to additional information on area-wide soil contamination. This figure does not show the location of all orchards that operated during the period when lead arsenate pesticides were used, 1905-1947.
