Hi Ken...

I wanted to touch base with you regarding a proposed listing for dissolved oxygen on the Pend Oreille River, listing ID #47081. I have been working with Lincoln Loehr on this, and I understand Lincoln discussed it with you yesterday. I had also asked Michele Wingert from the Kalispel Tribe to check on this, but I haven't heard from her.

As Lincoln discussed, we are somewhat confused by this listing, and suspect it may be incorrectly identified. I understand you had similar questions/concerns about it. The location of the dissolved oxygen readings seem inconsistent with other data on the river.

At this point, I don't know what else I should do regarding this listing. Would you please contact me and let me know if I need to make a "formal" comment on it, or if enough questions have been raised about it already.

Thanks,

Lori
