

# Fisher Creek Mitigation Plan

# Description of Proposed Mitigation Action

- Project Description
- Source of Water Supply for Proposed Mitigation Action
- Water Rights Affected by Proposed Mitigation Action

# Description of Proposed Water Use

- Build-out Analysis
- Consumptive Water Requirements for Proposed Water Use
- Peak Water Demand
- Source of Water Supply for Proposed Use
- Water Rights Affected by Proposed Use

# Proposed Mitigation Program Operations for Landowners

- Landowner Process
- Conditions to Mitigation Credit Sales
- Mitigation Program Account Management

# Hydrology and Hydrogeologic Analysis

- Baseline Data
- Groundwater Data
- Impacts Assessment
- Limiting Factors Analysis

# Reliability of Mitigation Measures

- Conservation Contingency Plan
- Low Impact Development (LID) Measures
- Water Quality Measures

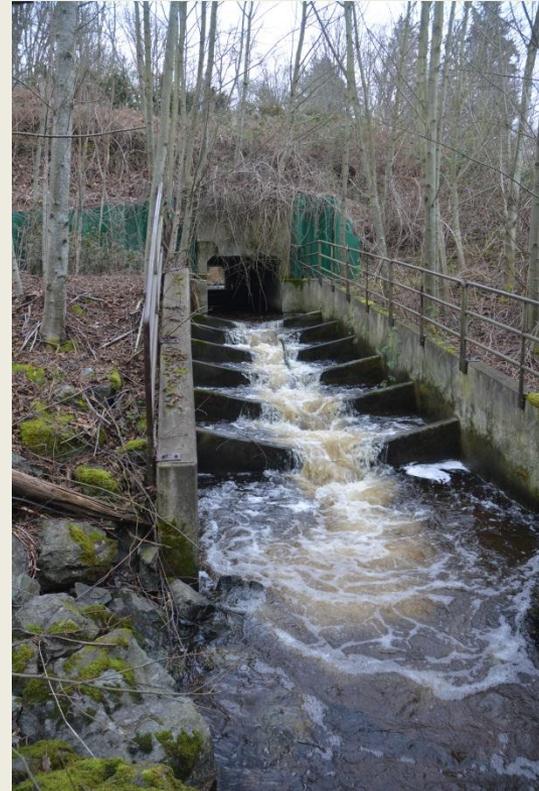

# Assurances of Long-term Viability

- Identification of Responsible Party
- Long-term Measuring, Monitoring and Reporting
- Adaptive Management Plan
- Financial Assurances
- Deed restrictions to implement mitigation plan

# Consistency with Existing Plans

- County Land Use Plan
- Watershed and Water Planning
- Fish and Wildlife Management Plans
  - ESA Recovery Plans

# Consultation with Affected Parties

- Interagency review team (IRT)
  - January 23, 2014
  - March 27, 2014
  - June 23, 2014
- Meetings with regulatory agencies
- Meetings with interested parties
- Ecology will follow its consultation protocols

# Required Permits

- State Water Right Permits
- Federal State and Local Water Quality Permits
- State and Local Construction and Land-Use Permits
