

Next steps in PLA development

Joan Nolan
Cedar and Green Water Quality
Improvement Lead
Department of Ecology
NWRO Water Quality Program

PLA Development Timeline

Ongoing Interested Parties Outreach & Participation

TAC Next steps

Phase 2 (2015)

Finalize Data and Model Preparation

- Discuss and provide recommendations on the data gaps and pollutant groupings memo
- Finalize inputs for Hydrologic Response Units (HRUs)
- Draft and refine Quality Assurance Project Plan (QAPP)

How will feedback from Interested Parties be used?

- Gathered by Ecology and EPA to inform the Quality Assurance Project Plan (QAAP)
- Will also inform strategy and decision-making moving forward

Opportunities to stay involved

- Participate in Interested Parties meetings. The next Interested Parties Meeting will be held in **early 2016**.
- Attend and observe TAC meetings, which are open to the public.

Next TAC Meeting
9 a.m. – 12 p.m. Thursday, June 18
Tukwila Community Center
(Meeting Room A)

Opportunities to stay involved

- Review TAC meeting summaries, archived on Ecology's website at: <http://www.ecy.wa.gov/geographic/GreenDuwamish/pla.html>
- Receive Ecology's regular email updates on TAC meeting discussions via our project listserv.
