RE: Coverage under the Construction Stormwater General Permit

Permit number: WAR-125379
Site Name: Terrestrial Geotechnical Investigations Gateway Pacific Terminal
Location: North of Henry Rd, South of Aldergrove Rd
Ferndale Whatcom
Disturbed Acres: 9.1

Dear Mr. Sahlin:

The Washington State Department of Ecology (Ecology) received your Notice of Intent for coverage under Ecology's Construction Stormwater General Permit (CSWGP). This is your permit coverage letter. Your permit coverage is effective on November 4, 2011. **Please retain this permit coverage letter with your permit (enclosed), stormwater pollution prevention plan (SWPPP), and site log book. These materials are the official record of permit coverage for your site.**

This coverage is for a project encompassing 9.1 acres. Due to the retroactive nature of this coverage, neither modifications nor disturbance of additional acreage is allowed. Any expansion or modifications to the original project plan will require a full SEPA review and separate NPDES construction stormwater permit coverage. The requirements of all federal, state, and local permits and other requirements must be followed. If there is conflict or confusion regarding permit conditions, please contact the permit administrator named below.

Please take time to read the entire permit and contact Ecology if you have any questions.
