NOTICE OF WITHDRAWAL

The Department of Ecology withdraws the following CR-101 filing:

- WSR 06-09-093 (Filed April 19, 2006)
- Quincy Ground Water Subarea Management Policy Rule – Proposed amendment to Chapter 173-134AWAC.

Since the original CR-101 was filed in April 2006, the agency has held three local workshops and collected additional information from stakeholders and the petitioner. The information collected provides Ecology with a better understanding for the direction of the proposed rule amendment. Ecology is filing a new CR-101 that would update the intent and provide a better description of the proposed rule amendment.
