**Title of rule and other identifying information:** Chapter 173-334 WAC, Children’s Safe Products Reporting Rule - This rule making would amend Chapter 173-334 WAC, Children’s Safe Products - Reporting Rule to add tris(1,3-dichloro-2-propyl)phosphate (TDCPP) (CAS # 13674-87-8) to the reporting list of chemicals, and to remove n-butanol (CAS # 71-36-3) from the reporting list of chemicals. This rule making is in response to new information associated with petitions to the Agency. The Washington Department of Health has also confirmed that TDCPP meets the toxicity and exposure criteria to be included on the CHCC list.

**Hearing location(s):**
Washington State Department of Ecology Headquarters, physical address – 300 Desmond Drive, Lacey WA

**Submit written comments to:**
Name: Josh Grice
Address: Department of Ecology
PO Box 47600
Olympia, WA 98504-7600
e-mail csparule@ecy.wa.gov
fax (360) 407-6102 must be received by 12:00 midnight on September 6, 2013

**Date of intended adoption:** October 16, 2013 (Note: This is NOT the effective date)

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** The purpose of this rule making is to add tris(1,3-dichloro-2-propyl)phosphate (TDCPP) (CAS # 13674-87-8) to the current list of reporting chemicals in Chapter 173-334 WAC, Children's Safe Products - Reporting Rule. As a result manufacturers of children’s products will be required to report the presence of this chemical when the product is being offered for sale in Washington.

**Reasons supporting proposal:** This rule making is in response to new information associated with petitions Ecology received from the Washington Toxics Coalition (WTC) and the American Chemistry Council (ACC). The WTC petition demonstrated that TDCPP met the criteria that are required to add a chemical to the reporting list of chemicals. Additional information has also indicated that there is a need to better understand the use of flame retardants in children’s products. The ACC information demonstrated that n-butanol no longer meets the criteria used to put a chemical on the reporting list of chemicals.
Agency comments or recommendations, if any, as to statutory language, implementation, enforcement, and fiscal matters:
