

Metering Progress

	% of Meters Installed	Quantity (cfs)	# of Water Rights with Meters Installed	Quantity (cfs)	# of Water Rights Reporting
Total	100	23,100	~4500	23,100	~4500
Goal	90	20,800	550	20,800	550
2011	93	21,522	554	21,397	478
2010	92	21,248	548	19,892	433
2009	87	20,053	452	19,211	354
2008	78	18,058	253	16,100	124

Metering Workload

Account and File Maintenance

- o Create, maintain, and update both electronic and paper water use records. This usually requires a measure of research to ensure information is represented correctly.
- o Track water use through unique assigned meter IDs.

Water Use Reports - Review and Data Entry

- o Review metering data submitted by water users.
- o Enter metering data into database and assist water users with online submittal system.
- o Quality assurance checks on metering data

Technical Assistance

- o Contact water users as follow up to water use reports needing attention.
- o Verify and gather information, technical assistance, or field visits.
