Ecology's acceptance of the donated water right into the trust water right program is not evidence of the validity or quantity of the right. When the period of trust ends, the water right will revert back to the water right holder or landowner in the full quantity accepted into the trust water program and for the original purposes.

If, prior to expiration of this temporary donation, you would like to extend the period of donation, or modify any terms of your donation, you need to submit your request in writing. Ecology will review your request for change and will notify you whether the terms or the period of donation can be extended.
