

## DRAFT

### SWG Goals for the November 10 public workshop

1. People understand the strategy
2. SWG gets feedback on the strategy
3. Folks are thinking about implementation
4. Participants feel like their time was well spent
  - understand how their interests are represented on the committee
  - feel like their input is heard and will be used
  - are confident that the strategy will be useful

### Proposed agenda for a 6 hour workshop

- 9:00 Welcome by David Dicks and Jay Manning, or perhaps Bill Ruckelshaus
- 9:20 Big group: tell them why we're here, where we are in the process, how we used info from May workshop, what participants want  
<Consider having a SWG panel doing this (caucus reps)>
- 9:50 Leska, John, Derek tag team description of what's in the document
- 10:20 Q&A
- 10:30 Break
- 10:45 Start pulling info from this group, keep it focused – don't let them expand it. Take their temperature.  
<Small groups rotating. No report back, leads do as each new group comes in>
- 11:30 Lunch on site, perhaps with an engaging speaker that mixes up ideas about education and stormwater or understand roles
- 1:00 Get folks thinking about implementation planning  
<Perhaps something to get them looking at each other, building community, perhaps an "un-conference">
- 2:50 Next steps
- 3:00 Adjourn
