**Re: Cherry Point BART Technical Analysis Report**

Dear Ms. Baas:

In response to the Washington State Department of Ecology Administrative Order #5069, sent August 24, 2007, BP Cherry Point is submitting the attached BART Technical Analysis Report. This report includes an evaluation of emission control technologies considered for each of the BART eligible units at the Cherry Point facility, a description of control technologies and associated emission levels selected to reduce visibility reducing emissions, and an estimate of the visibility improvement resulting from the implementation of controls.

Please call Valerie Lagen at (360) 371-1443 if you have any questions.

The information provided in the enclosed report is true and accurate to the best of my knowledge.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeff Pitzer', written over the printed name.
