

In the matter of adopting the **Spokane Second 10-Year Limited Maintenance Plan for PM₁₀** into the Washington State Implementation Plan

SIP ADOPTION ORDER

The Washington State Department of Ecology (Ecology) offered to hold a public hearing on November 5, 2015 to receive comments on the draft **Spokane Second 10-Year Limited Maintenance Plan for PM₁₀**. We accepted comments from October 1 to November 9. The revision details Washington's plan to maintain air quality in the Spokane County Maintenance Area through 2025.

Ecology met all state and federal procedural requirements for public involvement by doing the following:

- Published notice in one newspaper on October 2, 2015. This allowed Ecology to meet the requirement for at least 30 days of advance notice before the hearing.
- Provided an opportunity for the public to request a hearing.
- Issued a news release on October 1, 2015.
- Announced the public comment period and public hearing date on our online public involvement calendar.
- Published notice on our website.

We did not receive a request for a hearing, so we did not hold one, as allowed by 40 CFR Section 51.102. We received one comment.

IT IS HEREBY ORDERED that the referenced document, constituting the revision, is approved and adopted by the Department of Ecology as part of the Washington State Implementation Plan. All provisions of the Washington State Implementation Plan inconsistent with the attached documents are superseded.

Maia D. Bellon, Director
Department of Ecology
