

WAC 197-11-970 Determination of nonsignificance (DNS).

DETERMINATION OF NONSIGNIFICANCE

Description of proposal: The Washington State Department of Ecology is issuing an agreed order under the Model Toxics Control Act to require the General Electric Company (GE) to implement an interim action. GE will be required to install, operate and maintain a building subsurface depressurization system designed to reduce a threat to human health or the environment. The system will eliminate or substantially reduce the migration of unacceptable levels of trichloroethylene (TCE) vapors from the building subsurface into the working spaces.

Proponent: The WA State Department of Ecology

Location of proposal, including street address, if any: 220 South Dawson Street, Seattle, Washington

Lead agency: The Department of Ecology, Northwest Regional Office, 3190 160th Avenue SE, Bellevue, WA 98008

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-259(2) and WAC 173-340-600(16).
