

THE BOEING COMPANY - EVERETT PLANT (Boeing Everett Plant)

The Washington State Department of Ecology (Ecology) invites you to comment on an agreed order amendment to include two interim actions for The Boeing Company, Everett Plant (Boeing Everett Plant) located at 3003 West Casino Road, Everett, Washington.

Ecology and The Boeing Company (Boeing) propose to remove lead and carcinogenic polyaromatic hydrocarbon (cPAH) contaminated soils from a former gun club area. In addition, Ecology and Boeing propose to remove cPAH contaminated soils from beneath a parking lot at the Boeing Everett 45-70 building. Excavated soils will be disposed of at a hazardous waste landfill or a solid waste landfill.

Ecology has determined that these interim actions will not have significant adverse impacts on the environment. Therefore, Ecology is issuing a State Environmental Policy Act (SEPA) determination of non-significance (DNS) for this activity.
