Addendum G1
Personnel Training

Permit Attachment 5 describes specific requirements for the Hanford Facility Personnel Training program. The Permittees will comply with the following training matrix, which provides training requirements for Hanford Facility personnel associated with the Solid Waste Operations Complex (SWOC) Low-Level Burial Ground (LLBG) Trench 31-34-94 closure unit. Table G1-1 identifies the personnel training for a Closure Unit when dangerous waste containers are present. No LLBG Trench 31-34-94 closure units have dangerous waste containers present and, therefore, no personnel will undergo training using Table G1-1.

Table G1-2 identifies personnel training for Dangerous Waste Management Units undergoing closure where dangerous waste is no longer present. The LLBG Trench 31-34-94 closure unit where dangerous waste containers are no longer present is FS-1.

The SWOC Closure Units Dangerous Waste Training Plan (DWTP) provides a complete description of the personnel training requirements. As required by Permit Condition II.I.2, a copy of the DWTP will be placed in the operating record of the facility and will be updated by the Permittee as unit-specific conditions change. Training received by facility personnel will be commensurate with the duties they perform. Individuals are not required to receive training for work/duties they do not perform.

Table G1-1. Training Matrix for Closing DWMUs Where Dangerous Waste is Present

Permit Attachment 5 Training Category	Training Category ^a				
	General Hanford Facility Training	Contingency Plan Training	Emergency Coordinator Training	Operations Training	
SWOC Closure Units DWTP Implementing Plan	Orientation Program	Emergency Response (Contingency Plan)	Emergency Coordinator Training	General Waste Management and Closure Support	Container Management
Job title/position					
Nuclear Chemical Operator	X	X		X ^a	X ^b
Operations Supervisor	X	X	X	X ^b	
Environmental Compliance Officer (ECO)	X			X ^b	
Waste Service Provider	X			X ^b	X ^b
Sampler	X			X ^b	

a. Refer to the SWOC Closure Units Dangerous Waste Training Plan for a complete description of coursework in each training category.

b. Training received is commensurate with the duties performed. Individuals in this category who do not perform these duties are not required to receive this training.

Table G1-2. Training Matrix for Closing DWMUs Where Waste is No Longer Present

	Training Category ^a				
Permit Attachment 5 Training Category	General Hanford Facility Training	Contingency Plan Training	Emergency Coordinator Training	Operations Training	
SWOC Closure Units DWTP Implementing Plan	Orientation Program	Emergency Response (Contingency Plan)	Emergency Coordinator Training	General Waste Management and Closure Support	Container Management
Job title/position					
Nuclear Chemical Operator	X	X		X ^a	X ^b
Operations Supervisor	X	X	X	X ^b	
Environmental Compliance Officer (ECO)	X			X ^b	
Waste Service Provider	X			X ^b	X ^b
Sampler	X			X ^b	

a. Refer to the SWOC Closure Units Dangerous Waste Training Plan for a complete description of coursework in each training category.

b. Training received is commensurate with the duties performed. Individuals in this category who do not perform these duties are not required to receive this training.

1 **Addendum G2**
2 **Personnel Training**

3 Permit Attachment 5 describes specific requirements for the Hanford Facility Personnel Training
4 program. The Permittees will comply with the following training matrix, which provides training
5 requirements for Hanford Facility personnel associated with the Solid Waste Operations Complex
6 (SWOC) T-Plant Closure Unit. Table G2-1 identifies the personnel training for T-Plant Closure units
7 where dangerous waste containers are present. Currently, one T-Plant closing DWMU, the 221-T Tank
8 System is an unclosed, non-operating tank system containing mixed waste residue and, therefore,
9 personnel associated with this system will undergo training consistent with Table G2-1.

10 Table G2-2 identifies the personnel training for T-Plant Dangerous Waste Units undergoing closure
11 where dangerous waste containers are no longer present at waste storage areas and tank systems are
12 inactive (disconnected and emptied). Following are the T-Plant closure units where dangerous waste is no
13 longer present at waste storage areas and tank systems are inactive:

- 14 • 211-T Pad
- 15 • 221-T-R5 waste storage area
- 16 • 221-T Pipe Gallery Storage
- 17 • 221-T Railroad Cut
- 18 • 221-T Sand Filter Pad
- 19 • 2706-TB Tank system
- 20 • 271-T Cage
- 21 • 277-T outdoor storage area
- 22 • 277-T Building

23 The SWOC Closure Units Dangerous Waste Training Plan (DWTP) presents a complete description of
24 the personnel training requirements. As required by Permit Condition II.I.2, a copy of the DWTP will be
25 placed in the operating records of the facility and will be updated by the Permittee as unit-specific
26 conditions change. Training received by facility personnel will be commensurate with the duties they
27 perform. Individuals are not required to receive training for work/duties they do not perform.

1 **Table G2-1. Training Matrix for Closing DWMUs Where Dangerous Waste is Present**

	Training Category ^a				
Permit Attachment 5 Training Category	General Hanford Facility Training	Contingency Plan Training	Emergency Coordinator Training	Operations Training	
SWOC Closure Units DWTP Implementing Plan	Orientation Program	Emergency Response (Contingency Plan)	Emergency Coordinator Training	General Waste Management and Closure Support	Container Management
Job title/position					
Nuclear Chemical Operator	X	X		X ^a	X ^b
Operations Supervisor	X	X	X	X ^b	
Environmental Compliance Officer (ECO)	X			X ^b	
Waste Service Provider	X			X ^b	X ^b
Sampler	X			X ^b	

a. Refer to the SWOC Closure Units Dangerous Waste Training Plan for a complete description of coursework in each training category.

b. Training received is commensurate with the duties performed. Individuals in this category who do not perform these duties are not required to receive this training.

Addendum G3 Personnel Training CWC-WRAP

This page intentionally left blank.

Addendum G3
Personnel Training

Permit Attachment 5 describes specific requirements for the Hanford Facility Personnel Training program. The Permittees will comply with the following training matrix, which provides training requirements for Hanford Facility personnel associated with the Solid Waste Operations Complex (SWOC) Central Waste Complex Waste Receiving and Processing Plant (CWC-WRAP) closures. Table G3-1 identifies training for personnel associated with the SWOC CWC Outside Storage Area A and Outside Storage Area B, where dangerous waste containers are present. Until such a time as the dangerous waste containers are moved to another treatment, storage, and disposal location, personnel will be trained consistent with Table G3-1.

Table G3-2 identifies the personnel training for Dangerous Waste Management Units undergoing closure where dangerous waste containers are no longer present. The closure unit at CWC-WRAP where dangerous waste containers are no longer present is Building 2401-W.

The SWOC Closure Units Dangerous Waste Training Plan (DWTP) provides a complete description of the personnel training requirements. As required by Permit Condition II.I.2, a copy of the DWTP will be placed in the operating record of the facility and will be updated by the Permittee as unit-specific conditions change. Training received by facility personnel will be commensurate with the duties they perform. Individuals are not required to receive training for work/duties they do not perform.
