10  
11 Pursuant to delegated authorities from the State of Washington, Department of Ecology  
12 (Ecology) and the U.S. Environmental Protection Agency (EPA), as appropriate, Benton Clean  
13 Air Agency (BCAA) is responsible to ensure compliance on the Hanford Site with the following  
14 requirements:

- 15                   • 40 CFR 61 Subpart M “National Emission Standards for Asbestos,” as implemented and  
16                   supplemented by BCAA Regulation 1, Article 8 “Asbestos;” and  
17                   • WAC 173-425 “Outdoor Burning,” as implemented and supplemented by BCAA  
18                   Regulation 1, Article 5 “Outdoor burning.”

19 The Department of Energy, its contractors and its subcontractors will comply with each of the  
20 referenced regulations:

- 21                   • 40 CFR 61 Subpart M and BCAA Regulation 1, Article 8 [Asbestos NESHAP]; and  
22                   • WAC 173-425 and BCAA Regulation 1, Article 5 [outdoor burning activities-state only  
23                   requirement]

24 BCAA will inform Ecology prior to taking any final permitting or enforcement actions related to  
25 Hanford Site activities.
