

Dangerous Waste Portion of the Resource Conservation and Recovery Act Permit for the Treatment, Storage, and Disposal of Dangerous Waste

Change Control Log

Change Control Logs ensure that changes to this unit are performed in a methodical, controlled, coordinated and transparent manner. Each unit or section of the permit will have a “**Last Modification Date**” which represents the last date the unit or section has been modified. The “**Modification Number**” represents Ecology’s method for tracking the different versions of the permit. This log will serve as an up to date record of modifications and version history of the unit. An individual unit change control log will be placed at the beginning of each unit so that changes to individual addendum of the unit are tracked and reflected.
