RE: Class 3 Permit Modification, dated Aug. 27, 2014
Public Meeting Notice Added

Dear Interested Person,

This letter serves as notice that Perma-Fix Northwest Richland, Inc. (PFNW-R) located at 2025 Battelle Boulevard in Richland, WA has submitted a Class 3 Permit Modification Request (PMR) to the Washington Department of Ecology (Ecology) to install a new treatment process. Pursuant to WAC 173-303-830(4)(c)(ii), PFNW-R is mailing (or emailing) this notice to all parties who have requested that they be notified of modifications to the facility's RCRA/TSCA Mixed Waste permit and is on the facility mailing or email contact list.

PFNW-R has submitted a Class 3 PMR to install an evaporation system for liquid mixed wastes at its Richland facility. This permit change provides the necessary documentation to allow Ecology to approve the PMR in order for PFNW-R to safely and environmental-compliantly treat mixed waste. The evaporation system will include five (5) storage tanks, two evaporators, and ancillary equipment. The evaporation system will be contained inside its Mixed Waste Facility (MWF). The MWF contains adequate secondary containment that will contain 110% of its largest tank. The PMR includes the proposed changes to the existing RCRA/TSCA permit and subsequent attachments. The permittee's compliance history during the life of the permit being modified is available from the Department of Ecology contact person.

A copy of the Class 3 PMR is available to the public at the Richland Public Library. In addition, the permit modification can be viewed on Ecology's website, www.ecy.wa.gov/programs/nwp/commentperiods.htm. The public comment period starts August 31st and goes through October 31, 2014. A public meeting has been scheduled for 5:00pm on September 24, 2014 at the Richland Public Library. If you have any questions or comments on the permit changes, please contact Stephanie Schleif with Ecology at (800) 321-2008 or at NWP@ecy.wa.gov. Questions or comments may also be faxed to (509) 372-7971.

If you no longer wish to receive these notices or would prefer to receive these notices via email, contact Madeleine Brown with Ecology at (800) 372-7936.

Sincerely,

Richard Grondin
Vice President and General Manager
