Re: Closeout of Air Emissions Permit Inspection – Waste Treatment and Immobilization Plant  
Paint and Blasting Booth Permit

Dear Mr. Brockman:

This letter transmits the results of an inspection conducted June 10, 2010, by the Department of Ecology (Ecology) of Hanford Site air emission sources regulated under Washington Administrative Code (WAC) 173-400, WAC 173-401, and WAC 173-460.

The Waste Treatment and Immobilization Plant had been permitted to construct and operate Painting and Blasting Booths under ORDER DE08NWP-002. Ecology inspected the facility to determine the construction status of the permitted operations. Our investigation determined that the operations have not been constructed and are not anticipated to be constructed.

In accordance with Chapter 173-400-110(9) Washington Administrative Code, Ecology finds that ORDER DE08NWP-002 is void. You do not need to take action. Ecology will initiate amendment of the Air Operating Permit (AOP) to identify the removal of ORDER DE08NWP-002 from the AOP. Should you wish to appeal the withdrawal of the authorization contained within ORDER DE08NWP-002 you may do so by application, within 30 days of receipt of this letter, to:

Pollution Control Hearings Board
