RE: Water Quality Certification Order 9356 for Corps Public Notice NWS-2011-683

Dear Mr. Detamore:

On February 15, 2012 the Chelan County Public Works submitted a Joint Aquatic Resource Permit Application (JARPA) to the Department of Ecology (Ecology) requesting a Section 401 Water Quality Certification. A public notice regarding the request was distributed by Ecology for the above-referenced project pursuant to the provisions Chapter 173-225 WAC on May 29, 2012.

The proposed project to replace the existing Old Blewett Bridge with a single lane, 22 feet wide by 92 feet long, precast concrete span bridge in Peshastin Creek at mile post 172, State Route 97. The work waterward of the ordinary high watermark includes dredging and regrading the stream channel (260 cubic yards), placement of up to 500 cubic yards of protective riprap along both bridge abutments, and placement of up to 5 pieces of Large Woody Material along the right streambank. In addition, temporary sheet piles will be installed to isolate the work areas.

The project is located near Leavenworth, Chelan County, Washington, Section 13, Township 22N, Range 17 E, WRIA# 45, Wenatchee.

On behalf of the State of Washington, Ecology certifies that the work described in the JARPA and the public notice complies with applicable provisions of Sections 301, 302, 303, 306 and 307 of the Clean Water Act, as amended and applicable state laws. This certification is subject to the conditions contained in the enclosed Order.

Mr. Jason Detamore
Chelan County Public Works
July 2, 2012

TO: Mr. Jason Detamore
Chelan County Public Works
316 Washington Street, Suite 402
Wenatchee, Washington 98801

On February 15, 2012 the Chelan County Public Works submitted a Joint Aquatic Resource Permit Application (JARPA) to the Department of Ecology (Ecology) requesting a Section 401 Water Quality Certification. A public notice regarding the request was distributed by Ecology for the above-referenced project pursuant to the provisions Chapter 173-225 WAC on June, 25 2012.

The proposed project to replace the existing Old Blewett Bridge with a single lane, 22 feet wide by 92 feet long, precast concrete span bridge in Peshastin Creek at mile post 172, State Route 97. The work waterward of the ordinary high watermark includes dredging and regrading the stream channel (260 cubic yards), placement of up to 500 cubic yards of protective riprap along both bridge abutments, and placement of up to 5 pieces of Large Woody Material along the right streambank. In addition, temporary sheet piles will be installed to isolate the work areas. The project is located near Leavenworth, Chelan County, Washington, Section 13, Township 22N, Range 17 E, WRIA# 45, Wenatchee.

AUTHORITIES:

In exercising authority under 33 U.S.C. § 1341, 16 U.S.C. § 1456, RCW 90.48.120, and RCW 90.48.260, Ecology has examined this application pursuant to the following:

1. Conformance with applicable water quality-based, technology-based, and toxic or pretreatment effluent limitations as provided under 33 U.S.C. §1311, 1312, 1313, 1316, and 1317 (FWPCA § 301, 302, 303, 306 and 307);
2. Conformance with the state water quality standards contained in Chapter 173-201A WAC and authorized by 33 U.S.C. §1313 and by Chapter 90.48 RCW, and with other applicable state laws; and

3. Conformance with the provision of using all known, available and reasonable methods to prevent and control pollution of state waters as required by RCW 90.48.010.

WATER QUALITY CERTIFICATION CONDITIONS:

Through issuance of this Order, Ecology certifies that it has reasonable assurance that the activity as proposed and conditioned will be conducted in a manner that will not violate applicable water quality standards and other appropriate requirements of state law. In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, water quality certification is granted to the Applicant subject to the conditions within this Order.

Certification of this proposal does not authorize the Applicant to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this certification shall absolve the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters or sediments occurring as a result of project construction or operations.

A. General Conditions:

1. For purposes of this Order, the term "Applicant" shall mean Chelan County Public Works, and its agents, assignees and contractors.
2. All submittals required by this Order shall be sent to Ecology's Central Regional Office, Attn: Federal Project Coordinator, 15 West Yakima Avenue, Suite 200, Yakima, WA 98902, or via e-mail (preferred), if possible, to ecyrefedpermits@ecy.wa.gov. The submittals shall be identified with Order No. 9356 and Corps Reference # NWS-2011-683.
3. Work authorized by this Order is limited to the work described in the JARPA received by Ecology on February 15, 2012, unless otherwise authorized by Ecology.
4. Within 30 days of receipt of any updated information, Ecology will determine if the revised project requires a new water quality certification and public notice or if a modification to this Order is required.
5. The Applicant shall obtain Ecology review and approval before undertaking any changes to the proposed project that might significantly and adversely affect water quality, other than those project changes required by this Order.

6. The Applicant shall keep copies of this Order on the job site and readily available for reference by Ecology personnel, the construction superintendent, construction managers and lead workers, and state and local government inspectors.
7. The Applicant shall provide access to the project site and all mitigation sites upon request by Ecology personnel for site inspections, monitoring, necessary data collection, and/or to ensure that conditions of this Order are being met.
8. Nothing in this Order waives Ecology's authority to issue additional orders if Ecology determines that further actions are necessary to implement the water quality laws of the state. Further, Ecology retains continuing jurisdiction to make modifications hereto through supplemental order, if additional impacts due to project construction or operation are identified (*e.g.*, violations of water quality standards, downstream erosion, etc.), or if additional conditions are necessary to further protect water quality.
9. The Applicant shall ensure that all appropriate project engineers and contractors at the project site have read and understand relevant conditions of this Order and all permits, approvals, and documents referenced in this Order.
10. Failure of any person or entity to comply with the Order may result in the issuance of civil penalties or other actions, whether administrative or judicial, to enforce the terms of this Order.

B. Water Quality

1. This Order does not authorize temporary exceedances of the turbidity standard beyond the limits established in WAC 173-201A-200/210.

C. Timing Requirements

1. This Order will expire two (2) years from the date of issuance of the Corps Nationwide Permit Authorization letter.

YOUR RIGHT TO APPEAL

You have a right to appeal this Order to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do all of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.

- Serve a copy of your appeal and this Order on Ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
