DALE BEASLEY

Commercial Fishing

Columbia River Crab Fisherman's Association

360-642-3942

crabby@willapabay.org

Overall, I'm a strong bottom-up advocate for preserving coastal community economic survival and have negotiated numerous industry to industry agreements to share the ocean. I earned 100% of my family's income from the sea for over 45 years that taught the geobiophysical relationships of fish to nature where you got it right or went hungry. I retired 2010 and enjoy traveling all over the West with my family. I'm a graduate of WWU in Geology, a great lens that has focused observations of a lifetime at sea. Some people play golf for recreation, I enjoy representing local values for my community.

Professional Associations/Other:

- Vice President of Coalition of Coastal Fisheries, a 14 member group organization representing all gear types
- President Columbia River Crab Fisherman's Association
- Member of Pacific County Marine Resource Committee
- Founding Member of Lower Columbia River Solutions Group, bi-state Regional Sediment Management Program
- Past Member of Gov. Locke's Coastal Erosion Taskforce
- Advisory to WDFW Crab Advisory Group
- Member of the National Marine Fish Conservation Network
- Member of the National Water Protection Network

Work Experience and Interests:

- 36 year Volunteer Fireman serving the local community.
- Over 20 trips to Washington DC interacting with congress on coastal issues.
- Insuring a bottom-up approach to state management of Dungeness crab specifically exempt from federal management.
- Acquiring better weather forecast tools including coastal Doppler radar as oil spoil prevention tools.
- Strengthening local CZMA interactions.
- Meeting directly with USACE, NOAA, FERC, SBA, and other high level national agency personnel on issues that matter to the Washington coast.
- Acquiring dredging authorizations and funding.
- Updating Water Resource Development principles and standard with the CEQ.
- Buyback in the crab fishery.
- Testified at the first Senate Oversight committee hearing on Magnuson FCMA that "Fish Need Water Rights" in 1977.

GARRETT DALAN

Grays Harbor County MRC

360-249-4413

gdalan@co.grays-harbor.wa.us

Garrett grew up in Sequim, WA, graduating from Sequim High School. He attended the University of Washington and earned a Bachelor's Degree in Fisheries Science in 2001. From 2001 into 2005, Garrett worked for a private aquaculture company centering on commercial broodstock and captive brood of threatened Chinook salmon. In 2005 he started with Grays Harbor County Environmental Health, where his focus is solid waste and on-site septic systems. In May of 2009 Garrett entered into the role of staff coordinator for the newly formed Grays Harbor County Marine Resource Committee (GHC MRC).

City of Forks

Attorney/Planner

360.374.5412, ext. 245

*rod.forks@forkswashing-
ton.org*

Rod is the City Attorney, Prosecutor and Planner for Forks, Washington. His duties range from annexation review, to criminal prosecution, to labor relations, to natural resource policy review, to zoning code interpretations. After serving in the United States Air Force, Rod received his BA in history from the University of Washington. Rod received his J.D. from Seattle University School of Law and was hired by the City of Forks shortly thereafter. In 1985, he married his high school sweetheart, Cheri Tinker. They have three children. His interest include genealogy, Civil War history, and similar pursuits.

TAMI (LUND) GARROW

Economic Development

Grays Harbor Public

Development Authority

360-482-1602 work

tgarrow@satsop.com

Graduate, Hoquiam HS and University of Puget Sound, BA, English Lit. 30 years planning and economic development experience, public and private sector. Employed by Grays Harbor Public Development Authority, Satsop Development Park since 1999; CEO since June 2001.

Supervise a staff of 13 at Satsop, a mixed use business and technology park being created on the unfinished nuclear power plant site in Elma. The Park has 30+ businesses employing 350+ people. The Park received the U.S. Dept. of Commerce Economic Development Administration's Excellence in Rural Economic Development Award, and the Governor's Economic Development Award for Infrastructure. Our mission is to assist in the creation of new jobs and tax base for the region. We manage 450 developed acres and 1,200+ acres of FSC-certified forestlands (in partnership with GHC).

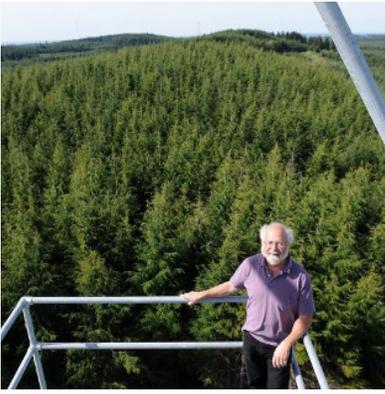

Previous work experience: Dir. of Business Development, GHPUD; Executive Director, GH Economic Development Council; taught at GH College; Port of GH Planning and Real Estate Mgr.; Program Mgr., WA State Dept. of Community Development (now Commerce); City Planner, Hoquiam; Associate Planner, GH Council of Governments.

Professional Associations/Other:

Board of Directors, Washington State Rural Loan Fund; Board of Directors, Pacific Mountain Workforce Development Council; Board of Directors, Grays Harbor Community Hospital Foundation; Recipient, 2005 Woman of Influence Award, Business Examiner Publishing Group

Personal:

Married to John Mertz, Managing Partner, Preszler Lerner Mertz and Co. LLP; Son, William, History teacher, baseball and football coach, Steilacoom High School; Daughter, Katie, La Raza Central Legal, San Francisco (La Colectiva/Day Laborers Program)

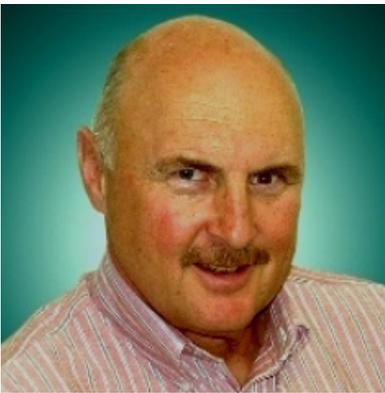

RD GRUNBAUM

DOUG KESS

*Pacific County MRC
Chair WCMAC
360-484-3427
kess-spack@wwest.net*

I introduced myself at the last meeting as The Man Without Qualifications and it is pretty much true. At one point long

ago I almost got a PHD in Statistics. As a part of that I ran a statistical consulting clinic that mostly existed so that professors would not have to consult with graduate students. It was fun. I worked with forestry, medicine, food science, veterinary, and social sciences researchers among others. That was, however, nearly 40 years ago when they still used punch cards. My best story from those days is about a food science researcher who wanted to make shrimp patties that would last for many weeks without refrigeration. No one would eat them and he eventually went to work for Ralston Purina.

Other than that, I was a stay at home dad. I have one daughter, a poet, who is currently teaching Writing and Theater in Rwanda. She is also working with former child soldiers. When she was 14 we moved to France and then to Belgium for my wife's job. She was a software manager.

I have always done a lot of volunteer work including six years of working with at risk teenagers in an inner city California school. In my spare time I like to write watermelon jingles like:

When your daughter comes home with a convicted felon,
Console yourself with watermelon
or

When they are knocking on the door and you know they are sellin,
Go hide in the closet with some watermelon

For me serving on this committee is a great opportunity to do public service and I look forward to working with so many likeminded and talented people.

KEY MCMURRY

Citizen

*Key Environmental Solutions
LLC
360-942-3184
key@keyenvironmentalsolu-
tions.com*

Key McMurry has over 24 years of experience working in the biological field and started Key Environmental

Solutions in March, 2009. She specializes in projects that involve wetlands, stream, river, and hydraulic issues throughout southwest Washington, including stream assessment, stream restoration design, streamtyping, electro-shocking, ordinary high water mark determination, large woody debris placement, fish-passage culvert design, fish removal, permitting, and construction oversight. Key also has experience in performing wetland delineations, designing and implementing wetland mitigation plans, permitting, BE's, performing critical area recons and performing Mazama pocket gopher delineations and bird surveys.

Prior to starting KES, Key was an area habitat biologist for Washington Department of Fish and Wildlife Region 6 for seven and a half years. Key gained extensive experience assessing, designing, permitting, streamtyping and implementing in-stream projects in western Washington. She developed prioritized, negotiated, and implemented fish, wildlife, and habitat protection efforts with landowners and government agencies. Key also reviewed forest practice applications, performed 100's of streamtyping and Joint Aquatic Resources Permits Applications for culvert and bridge designs, large woody debris placement, and bulkhead designs. Key was one of the lead biologists that worked on the Willapa River Estuarine Restoration Project, which restored 300 acres of estuarine wetlands.

Education

- B.S. with Marine Biology Emphasis
- University of Alaska Fairbanks, 1992

Certifications

- Women Owned Business, WBE & DBE
- Fully Insured both with Professional Liability & General Liability, 2009
- Certified Erosion & Sediment Control Lead, 2008, 2011
- Certified Electroshocker-Owns LR-24 Smith Root Shocker, 2003
- Professional Wetland Scientist, 2002

Affiliations

- Washington Pacific Coast Solutions Board, 2011
- WRIA 24 LE, 2011
- River Restoration Northwest, Member, 2009
- Pacific County Marine Resources Committee, 2009
- Washington Coast Sustainable Salmon Partnership, 2007
- Willapa Bay Water Resources Coordinating Council, 1998
- Society of Wetland Scientists, 1997

MIKE NORDIN

*Alternate, Pacific County
MRC*

360-875-9425

mnordin@co.pacific.wa.us

Graduated from:

- Kellogg High School, Idaho 1990
- Grays Harbor College AA 2002
- Pacific Lutheran University BA Scandinavian Area Studies minor in American History 2005
- Grays Harbor College GIS Certificate 2007

Employed by:

- Carmichael Oil Co. Astoria, OR 7 years
- Pacific Conservation District 3 years

Serve on:

- Pacific County Vegetation Management Current
- Pacific County Marine Resource Committee
- WRIA #24 Salmon Recovery Board
- Raymond PTA Secretary 1 year
- Raymond PTA President 1 year
- Grays Harbor College Student Body Treasurer 1 year

I enjoy watching football, baseball, sci-fy movies and cooking shows. I collect comic books, read history and Political books, and encourage cultural history. I love spending time with my family and friends.

**RICH W. OSBORNE,
Ph.D**

*Science
Feiro Marine Life Center
Research Associate
360-301-2175
osborner@uw.edu*

Rich is the past Research Curator at The Whale Museum (1981-90 & 94-2003) and briefly Director (2004-2006), where he also coordinated the San Juan County marine mammal stranding network and served as the Principal Investigator of the Marine Mammal Pathology Lab at the University of Washington Friday Harbor Laboratories. Rich received his bachelor's degree from The Evergreen State College, his master's from Western Washington University, and his PhD in Physical Geography and Resource Management from the University of Victoria.

Since 2007 Rich has been working on State contracts through the Clallam County Department of Community Development as Coordinator/Facilitator for the North Pacific Coast Lead Entity and Marine Resources Committee, and the WRIA 20 Implementation Body. Rich maintains his office at the UW Olympic Natural Resources Center in Forks, where he also serves on the Board of Directors of the Washington Coast Sustainable Salmon Partnership, and as Chair of their Regional Technical Committee. As a continuing Research Associate of The Whale Museum, Rich maintains his involvement in long term studies of Southern Resident Orca coastal movement patterns, and presently serves as Principal Investigator of the Juan de Fuca Marine Mammal Stranding Network through Feiro Marine Life Center in Port Angeles.

TAMI POKORNY

*Alternate,
North Pacific MRC
360-379-4498
tpokorny@co.jefferson.
wa.us*

Tami Pokorny is an Environmental Health Specialist for Jefferson County, WA. She holds a B.A. in Geology from Colorado College and completed one year of MS course work in geo-hydrology at Colorado State University. Tami was a seasonal hydrologic technician and fought forest fires for the US Forest Service in Wyoming during the late eighties. As an outdoor instructor for the National Outdoor Leadership School (NOLS), she led backpacking courses in Wyoming and Alaska as well as sailing and kayaking courses in Southeast Alaska, Prince William Sound and Baja California, Mexico. Also at NOLS, Tami conducted recreation ecology research on three Wyoming Nature Conservancy Preserves in Wyoming and wrote curriculum for the wilderness ethics program, Leave No Trace. Since 2004, she has represented Jefferson County on several natural resources committees concerned with salmon recovery, flood mitigation, watershed planning and marine resources. She edits the West End Natural Resources News for the North Pacific Coast MRC and administers the county's open space acquisitions through its Conservation Futures and salmon recovery programs. Her hobbies include a small farm, skiing, watching waves, and most recently, SCUBA diving with her husband and two teenage boys.
