*Ecology has prepared a proposed schedule for addressing the topics in phase 2. Due to time constraints, the proposal is to begin meeting in the second week of December, 2012 and meet through July, 2013. In order to meet Ecology and APA deadlines, the language needs to be submitted by August 1, 2013.*

*Part of the proposed schedule and process would involve the formation of subcommittees/workgroups. We also want to review our initial thoughts and get your feedback.*
