

Proposed Schedule for SEPA Rule Advisory Committee Phase 1 Rule Development

First meeting (August 14): The first two topics of the Phase 1 rule development are linked, and it is hard to separate them. Thus, we propose for the first meeting to begin discussing both of them:

- Increase the maximum threshold levels for certain specified exemptions;
- Establish maximum exemption levels for action types that differ based on:
 - Within a city
 - Within an unincorporated UGA
 - Within an unincorporated GMA outside the UGA
 - Within an unincorporated non-GMA county

Second meeting (September 11): Continue discussing topics remaining from first meeting

Third meeting (October 2):

- Increase efficiencies for the existing environmental checklist
- Electric facility provisions

Fourth meeting (October 16) if required:

- Wrap up
