The information on the map has been compiled by the City of North Bend and other agencies in the preparation of this Shoreline Master Program. The accuracy of the information is subject to the accuracy of the underlying data sources and the methods used to generate the map. The information is not intended for navigation or legal purposes. It is intended for use as a planning tool and should not be relied upon for legal decisions.

Other Flood Areas
Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 1% annual chance flood.

Other Areas
Areas determined to be outside the 0.2% annual chance floodplain.

City Limits
Areas in which flood hazards are undetermined, but possible.

Urban Growth Area
Areas to be developed.

Right of Way
Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 1% annual chance flood.

Minimum Shoreline Jurisdiction
Subject to inundation by the 1% Annual Chance Flood Event

Special Flood Hazard Areas
- Flooding areas in Zone A:
- Flooding Depth 0' to 1' (usually sheet flow on sloping terrain); no information on flooding, velocities also determined.
- Flooding Depth 1' to 2' (usually sheet flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.
- Flooding Depth 2' to 3' (usually sheet flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.
- Flooding Depth 3' to 4' (usually sheet flow on sloping terrain); average depths determined. For areas of alluvial fan flooding, velocities also determined.
- Base Flood Elevations (BFE) determined.
- No Base Flood Elevations (BFE) determined.
- Base Flood Elevations determined.
- Other Areas
- Areas of 0.2% annual chance flood; areas of 1% annual chance flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 1% annual chance flood.
- Other Areas
- Areas determined to be outside the 0.2% annual chance floodplain.

Note:
Additional site-specific evaluation may be needed to confirm flood information shown on this map.
