Shorelands and Environmental Assistance Program  
3190 160th Avenue S.E.  
Bellevue, WA  98008-5452

RE: City of Tukwila Shoreline Master Program

Dear Dave:

I am writing to correct one item from the City’s August 31, 2011 submittal to Ecology on the required and recommended changes to the City’s Shoreline Master Program. Attachment C to Ecology’s March 24, 2011 letter to the City should read as follows:

3. Add to Sections 8.2.A.1, 8.3.A.1, 8.4.A.1, and 8.5.A.1 the following:

   Fill solely for the purpose of ecological restoration.

   **City Response:** the City accepts the recommended revision to Section 8.5 A 1, the Aquatic Environment. The other shoreline environments permit shoreline restoration projects as a permitted use, which could encompass fill for ecological restoration.

If you have any questions, please contact Carol Lumb at 206-431-3661 or carol.lumb@tukwilawa.gov.

Sincerely,

[Signature]

Jack Pace, Director  
Department of Community Development
