   The City’s policies and regulations for shorelines are contained in the master program document
   that is adopted by the city, and entitled Camas Shoreline Master Program (Program).
   1. Procedures. The process and procedures regarding shoreline master program permits are
      found in Appendix B of the Camas Shoreline Master Program (herein after referred to as the
      “Program”). When a shoreline substantial development permit and a shoreline conditional use
      permit or variance is required for a development, then the submittal of the permits shall be
      made concurrently.
   2. Consolidated Review. Unless an applicant requests otherwise, any other permits that are
      required for the development or use (e.g. permits within CMC Titles 15, 16, 17 and 18) and

      decision shall be issued as a single decision as required per RCW 36.70B.120-Permit Review
      Process.

B. Expiration of Shoreline Master Program Permits.
   1. The time requirements of this section shall apply to all substantial development permits
      and to any development authorized pursuant to a shoreline variance or conditional use permit.

      proposed and consistent with the policy and provisions of the Program, the city may adopt
      different time limits from those set forth in this section as a part of an action on a substantial
      development permit. (WAC173-27-090)
   2. Construction activities shall be commenced or, where no construction activities are
      involved, the use or activity shall be commenced within two years of the effective date of a
      substantial development permit. However, the Shoreline Administrator may authorize a single
      extension for a period not to exceed one year based on reasonable factors, if a request for
      extension has been filed before the expiration date and notice of the proposed extension is
given to parties of record on the substantial development permit and to DOE. (WAC173-27-090)

3. Authorization to conduct development activities shall terminate five years after the
effective date of a substantial development permit. However, the Shoreline Administrator may
