SMA Grant No. G1000015

This map depicts the approximate location and extent of areas subject to the SMP. The actual extent of shoreline jurisdiction requires a site-specific evaluation to identify the ordinary high water line and any associated wetlands. Wetland locations are approximate and based on existing County inventory; additional wetlands may be present that are not shown on the map and some of the areas shown as wetland may not meet the wetland criteria. This map makes no claim as to whether wetlands are associated with the shoreline or not.
