

# The ReWall Company, LLC

***100% Recycled Building Materials***

# Today's Issues

Recycling of coated paper products

Sustainability, carbon emissions, energy efficiency, resource conservation

# Our Solution

---

## ReWall

- Creates premium green building materials
- Recycles post-consumer beverage containers
- Omits water, glues and chemicals
- Saves more than 90% of CO<sub>2</sub> emissions compared to production of traditional gypsum-based materials

# Proven Technology

---

In Europe for more than a decade

- Tetra Pak, Samsung, Nestlé, Mondi paper
- Mature recycling culture
- ReWall is first to the U.S.

Green building now accounts for nearly one-third of new construction in the U.S.

LEED points for U.S. builders
