*Note: WMMFA reported pounds represent pounds paid for on a "cash" basis as opposed to an "accrual" basis.

At the end of a given period (week, month or year) there are pounds:

1. Collected and on hand at a collectors facility awaiting pick up
2. In transit to a processor location
3. At a processors location in the processing queue - not yet billed to the WMMFA
4. Processed, awaiting completion of pounds verification and billing paperwork
5. Processed, billed, but unpaid awaiting additional documentation

These pounds (1-5 listed) are not included in the "reported" pounds on this chart.

Note: Proprietary information submitted to the Dept. of Ecology under WAC 173-900 is exempt from public disclosure as per RCW 42.56.270. Ecology received requests from E-Cycle Washington program processors to exempt their downstream vendors from public disclosure. These requests were approved based on the determination that releasing this information could adversely affect the processors' competitive position. As a result, Ecology redacted specific information about downstream vendors other than location by country

CEP's collected by WMMFA from non-profit charitable organizations primarily engaged in re-use and re-sale.

All paid transactions 2010

All pounds collected and paid for 2010 total - weights verified at processing. Does NOT include reuse pounds

*Note: WMMFA reported pounds represent pounds paid for on a "cash" basis as opposed to an "accrual" basis.

At the end of a given period (week, month or year) there are pounds:

1. Collected and on hand at a collectors facility awaiting pick up
2. In transit to a processor location
3. At a processors location in the processing queue - not yet billed to the WMMFA
4. Processed, awaiting completion of pounds verification and billing paperwork
5. Processed, billed, but unpaid awaiting additional documentation

These pounds (1-5 listed) are not included in the "reported" pounds on this chart.

Processors participating in WMMFA Standard Plan

Description of processes and methods

Reference to compliance audits

The information listed below represents a summary of processor locations and processing methods of each of the approved processors participating in the Standard Plan

Processes listed include all those used and/or discontinued throughout 2010

For the most current compliance audit report please refer to the WMMFA Standard Plan Processor section at this link:

<http://www.ecy.wa.gov/programs/swfa/eproductrecycle/docs/StandardPlanProcessors.pdf>

Ace Metal Company, 11110 Mukilteo Speedway #202, Mukilteo, WA 98275		James Yoo	(425)493-6802
Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country
CRT Glass	Removed from CEP by hand dismantling separated panel and funnel, all metal removed	Glass to glass, all materials are reused in new glass product	Mexico
Circuit Boards	Removed from CEP by hand dismantling	Precious metals recovery	Belgium
Batteries	Hand removed from CEP and sorted by type	Metal Recovery	USA
Mercury Devices	Hand removed from CEP managed as universal waste	Retort Mercury Recovery	USA
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination
Steel	Hand removed from CEP and sorted	Metal Recovery	USA
Plastics	Hand removed from CEP and sorted	Plastic Recovery	USA
Insulated Wire	Hand removed from CEP and sorted	Metal Recovery	China
Aluminum	Hand removed from CEP and sorted	Metal Recovery	USA

EWC Group, 410 Andover Park E., Tukwila, WA 98188		Clara Jung		(206)767-9950	
Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country		
CRT Glass	Manually removed from CEP; separate panels, metals, and all other residuals	Glass to glass; all materials reused in new glass products	Mexico / U.S.		
Circuit Boards	Manually removed from CEP	Primary smelter for precious metal recovery	Korea / U.S. / Belgium		
Batteries	Manually removed from CEP and sorted by type	Metal Recovery	Korea / U.S.		
Mercury Devices	Manually removed from CEP and managed as Universal Waste	Mercury recovery	U.S.		
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination		
Steel	Manually removed from CEP	Metal recovery	U.S.		
Plastics	Manually removed from CEP	Plastic Recovery	China*		
Insulated Wire	Manually removed from CEP	Metal recovery	China* / Korea		
Aluminum	Manually removed from CEP	Metal Recovery	China* / Korea		

IMS Electronic Recycling, 2401 Saint Francis Lane, Vancouver, WA 98660		David Palenshus		(360)750-8883	
Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country		
CRT Glass	Removed from CEP by hand dismantling vacuum released	Glass to Glass Processed for use in new CRT products	U.S.		
Circuit Boards	Removed from CEP by hand dismantling or Automated shred/sort	Primary smelter recovering metals	Sweden		
Batteries	Hand removed from CEP sorted by type	Metals Recovery	U.S.		
Mercury devices	Hand removed from CEP packed in lined sealed containers	Mercury recovery	U.S.		
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination		
Steel	Removed from CEP by hand dismantling or Automated shred/sort	Metal Recovery	U.S.		
Plastics	Removed from CEP by hand dismantling or automated shred/sort	Plastic Recovery	U.S.		
Insulated Wire	Removed from CEP by hand dismantling or automated shred/sort	Metal Recovery	U.S.		
Aluminum	Removed from CEP by hand dismantling or automated shred/sort	Metal Recovery	U.S.		

Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country
CRT Glass	Removed whole from CEP.	Glass to glass, all materials are used reused as raw material for new products	United States
Circuit Boards	Removed from CEP by hand-dismantling	Primary smelter recovery metals	United States
Batteries	Hand-removed from CEP, sorted by type.	Metal Recovery	United States
Mercury Containing Lamps	Hand-removed from CEP, stored in closed containers.	Mercury Recovery	United States
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination
Steel	Removed from CEP by hand-dismantling.	Metal Recovery	United States
Plastics	Removed from CEP by hand-dismantling.	Plastics Recovery	United States
Insulated Wire	Removed from CEP by hand-dismantling.	Metal Recovery	United States
Aluminum	Removed from CEP by hand-dismantling.	Metal Recovery	United States
Scrap Wood	Removed from CEP by hand-dismantling.	Solid Waste Landfill (via Transfer Station)	United States

Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country
CRTs	<p>Most CRTs are dismantled and the glass is crushed on-site.</p> <p>All other CRTs are refurbished for resale.</p>	<p>Downstream recyclers are discussed in Lead-Containing Glass, below.</p> <p>Such use (after sale) is not subject to additional due diligence requirements.</p>	<p>See Below</p> <p>Not Applicable</p>
Lead-Containing Glass	<p>CRTs that are not refurbished for resale are dismantled and the glass is crushed on-site.</p>	<p>ECS prefers to ship lead- containing glass to a CRT Tube manufacturer, which uses the glass to make new CRT Tubes (glass to glass recycling).</p> <p>However, the primary destination for Glass from WA goes to Xstrata</p> <p>Lead-containing CRT Glass not shipped for glass-to-glass recycling is shipped to a Lead (Pb) Smelter which recovers the lead as a commodity and sells it on the world market.</p>	<p>TDM (Mexico)</p> <p>Xstrata (New Brunswick, Canada)</p>

			or Doe Run (Herculaneum, MO, USA)
Circuit Boards (Whole)	Circuit Boards are shredded to a minus 2" particles size. The iron & aluminum are removed by magnetic & eddy current separation.	Shredded circuit boards are shipped to a primary copper smelter which recovers copper, gold, silver and palladium as well as other minor elements. The metals are sold as commodities on the world market	Xstrata-Horne (Rouyn Noranda, Quebec, Canada)
Batteries	Batteries are manually removed from electronic devices. The batteries are sorted by type (Alkaline, Lithium, etc).	Lead/Acid batteries are shipped to a battery manufacturer which recycles the batteries by melting the lead and using it in the manufacture of new batteries. Silver oxide batteries are smelted on-site and their silver content is captured by ECS. Post smelted materials are sent for further precious metals processing. All other batteries are shipped to a high temperature alloy producer which melts the batteries by their specific type to recover the respective metals.	Exide Technologies (USA) Xstrata-Horne (Rouyn Noranda, Quebec, Canada) Metal Conversion Technologies (USA)
Mercury Devices	Mercury devices are received and stored for off-site processing (fluorescent lighting tubes, for example) or mercury devices may be manually removed from other electronic devices.	All mercury-containing devices are shipped to an EPA approved mercury recycler which removes the mercury from the device and produces mercury as a commodity for sale.	AERC (USA)
PCBs	PCBs are not intentionally accepted at ECS. If such material was received, it would be returned to the generator.	Not Applicable	Not Applicable
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination
Steel	Electronic scrap is shredded to a minus 2" particle size and then the steel is magnetically removed.	The steel is shipped to a steel mill where the steel is melted to produce new steel products (steel rod, plate or bars)	USA, Taiwan, Korea, China Sims Charron Metals

Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country
CRT Glass	Removed from CEP, funnel, metal band, and gun removed at smelter	Glass to glass, all materials are reused in new glass product	Mexico
Circuit Boards	Removed from CEP by hand-dismantling	Primary smelter recovering metals	Belgium
Batteries	Hand-removed from CEP, sorted by type	Metal recovery	U.S.
Mercury devices	Hand-removed from CEP, managed as universal waste	Mercury recovery	U.S.
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination
Steel	Removed from CEP by hand-dismantling	Metal recovery	U.S. & South Korea
Plastics	Plastics are manually removed from the electronic scrap and baled by type of plastic (ABS, HIPS, PC etc.)	Plastic recovery	U.S., China & Hong Kong
Insulated Wire	Removed from CEP by hand-dismantling	Metal recovery	U.S., China & South Korea
Aluminum	Removed from CEP by hand-dismantling	Metal recovery	U.S., Taiwan & South Korea

TOTAL RECLAIM, 2200 6th Ave S., Seattle, WA 98134		Craig Lorch	(206)343-7443
Material Of Concern	Recycling Process	Fate of Recycling Process	End of life processing-Destination Country
CRT Glass	Removed from CEP and screen and metal gun removed	Glass to glass, all materials are reused in new CRT	U.S.
Circuit Boards	Removed from CEP by hand dismantling or automated shred/sort process	Precious metals recovery	Canada or Sweden
Batteries	Hand removed from CEP, hand sorted by type.	Metal recovery	U.S or Canada
Mercury devices	Hand removed from CEP, managed as universal waste	Mercury recovery	U.S.
Non-Materials of Concern	Recycling Process	Fate of Recycling Process	Destination
Steel	Removed from CEP by hand dismantling or automated shred/sort process	Metal recovery	U.S.
Plastics	Removed from CEP by hand dismantling or automated shred/sort process	Plastics recovery	U.S.
Insulated Wire	Removed from CEP by hand dismantling or automated shred/sort process	Metal recovery	U.S.
Aluminum	Removed from CEP by hand dismantling or automated shred/sort process	Metal recovery	U.S.

WMMFA Educational and Promotional Efforts 2010 - summary

- 1 Funded design, manufacture and distribution of brochures and indoor / outdoor posters. Provided to all collectors or other interested parties. Approximately 10,000 brochures and over 200 posters were distributed to collectors and stakeholders free of any charge in 2010.
- 2 The WMMFA maintains a website and toll free phone number that gives information about the WMMFA and the E-cycle WA plan in sufficient detail to all covered entities, potential service providers and other stakeholders. It is estimated that the WMMFA directed over 2,500 covered entities (mainly households, small governments and school districts) via phone contact initiated by the covered entity in 2010. Some promotional materials are available by direct re-print from resources available at our web site.
- 3 The WMMFA sponsored 1600 - 30 second radio spots directing the public to the e-cycle wa web site to find information on collection sites and other details of the recycling plan. The map below identifies some of the market areas that received the broadcasts over several months time span. Although broadcasts were state wide - emphasis was on rural areas.
- 4 The WMMFA focused on co-op advertising with collectors in 2010. Collectors that the WMMFA partnered with in 2010 included: Tek Eaze - Elma, Anacortes Aktion Club - Anacortes, St. Vincent De Paul - Lynwood, At Work Recycling - Issaquah, Lincoln County Pub Works - Davenport, Ace Metal - Mukilteo, Green Okanogan - Omak, All-Shred - Poulsbo, Ecologicomagazine.com - various, Goods for the Planet - Seattle, Spokane County Fair (program) - Spokane, SBK Recycling - Snohomish, St. Vincent DePaul - Seattle, EC Computers - Des Moines, Snohomish County - eecycle i-pad drawing. Samples of some of the co-op print media ads and other efforts are reproduced below.
- 5 The WMMFA financed and the printing of 29,000 mail inserts for the Clallam PUD for distribution in PUD mail throughout December 2010.

Examples of some of the promotional materials / participation materials:

2010 E-Cycle Washington Radio Network Campaign

Concept:

Execute a marketing program that conveniently and cost-effectively reaches residents across the entire State of Washington to promote the new E-Cycle Washington campaign.

Strategy:

Utilize Bonneville Seattle's available network commercial inventory as negotiated in their Seattle Mariner affiliate broadcast agreements with the addition of NewsTalk 97.3 KIRO FM-Seattle. Utilize centralized commercial production for continuity of message across all regions of the State.

WMMFA Network Stations:

COLVILLE CONFEDERATED TRIBES ELECTRONIC WASTE COLLECTION EVENT

We are planning a Reservation-wide electronic waste collection day for each district on the Colville Indian Reservation. We will have a truck onsite for collection of the items listed below. You can also drop off your e-waste at the Tribal Recycling Facility located at 68 School Loop Road in Nespelem, WA during Regular office hours up to August. 26, 2010.

DATE: Monday 8/23/10
TIME: 9 am - 12 PM
PLACE: INCHELIUM COMMUNITY CENTER

DATE: Monday 8/23/10
TIME: 1 pm - 3 pm
PLACE: KELLER COMMUNITY CENTER

DATE: Wednesday 8/25/10
TIME: 10 am - 1:00 PM
PLACE: OMAK COMMUNITY CENTER

DATE: Thursday 8/26/10
TIME: 9 am - 2 pm
PLACE: NESPELEM RECYCLING FACILITY

WHY RECYCLE?

- Electronic equipment contains toxic materials such as lead, cadmium and mercury that are harmful to human health, animals and the environment.
- Recycling and proper disposal of electronics will keep them out of our transfer stations/dumps.

- This is a perfect time to start your spring cleaning in your *Tribal offices, Homes, and Schools.*

WHAT CAN I RECYCLE?

- Televisions
- Computers
- Computer Monitors
- Portable or laptop computers

E-CYCLE
small effort • big return
ecyclewashington.org

WHAT IS NOT ACCEPTIBLE?

- *Computer peripherals including: keyboards, mice, printers and other electronics*

Enumclaw Recycling Collection Event

June 19, 2010 10 am-5 pm

Enumclaw Expo Center

(45224 284th Ave SE in Enumclaw)

Only the Following Items Will be Accepted.....

You Can Bring...

- **TIRES:** Bias ply, steel belted, and studded tires accepted. Limit 6 passenger tires per household (18 inches and below) free of charge. \$1.50 charge for each tire on a rim. \$5 charged for each large truck tire and \$15 charged for each truck tire on rim (cash only). No oversized tires accepted.

- **MOTOR OIL, FILTERS, & ANTIFREEZE:** The Hazardous Wastemobile will accept these materials. No containers over 5 gallons in size and the quantity cannot exceed 50 gallons.

- **LEAD ACID BATTERIES:** Car, truck, marine, and motorcycle batteries accepted.

- **ALKALINE BATTERIES:** AAAA, AAA, AA, A, B, C, and D cell batteries only.

- **RECHARGEABLE BATTERIES:** Rechargeable batteries such as Nickel Cadmium (Ni-Cad), Nickel Metal Hydride (NiMH), Lithium Ion (LiIon) and small rechargeable lead batteries under two pounds can be recycled free of charge.

These household wastes:

- No construction/demolition debris
- No garbage
- No mattresses/furniture
- No plastic toys, hoses, etc.
- No window glass

The Hazardous Wastemobile will visit Enumclaw on June 18-20 - Friday, Saturday, Sunday

•**CARDBOARD:** Please flatten. No wax coated cardboard.

•**PROPANE TANKS:** *The Hazardous Wastemobile will accept this material. Seven (7) gallon tank maximum.*

•**HOUSEHOLD GOODS AND CLOTHING:** Clothing and miscellaneous household items in good condition. Mattresses and furniture will not be accepted. Items in need of repair will not be accepted.

•**PORCELAIN TOILETS AND SINKS:** **\$5 charge (cash only).** Toilet seats, hardware, and base wax rings must be removed.

•**BULKY WOOD:** Logs, large tree branches (minimum 6 inches in diameter), clean wood, plywood, pallets, and other untreated and unpainted wood. **No peg board, particle or press board. No leaves, grass, small branches, or sod.** Please lay a tarp under material for ease of removal.

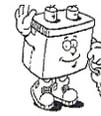

•**APPLIANCES AND SCRAP METAL:** Auto parts, engines and gas lawnmowers (drained of oil and gasoline), metal lawn chairs, stoves, microwaves, barbecues, steel, aluminum, brass, copper and other ferrous and non-ferrous metals. **\$5 will be charged for each water heater that still has insulation coating (cash only).** Metals that are insulated, rubber or oil coated, previously or currently contain **gas, oil, chemicals, paint, or hazardous materials** will not be accepted. Light fixture ballasts and sealed drums will not be accepted.

•**REFRIGERATORS/FREEZERS/HOUSEHOLD AIR CONDITIONERS:** **\$25 charge for each refrigerator, freezer, or household air conditioner (cash only).**

•**COMPUTER AND ELECTRONIC EQUIPMENT:** DVD players, VCRs, stereo equipment, printers, copiers, fax machines, scanners, and cellular phones. Computers, computer monitors (**no charge**), mouse, and keyboards. **See the E-Cycle box for more information.**

•**TELEVISION SETS:** TV sets encased in plastic, wood console, sets encased in wood, and big screen TVs accepted (**no charge**). **See the E-Cycle box for more information.**

•**HOUSEHOLD RECYCLABLES:** This includes newspapers, mixed paper, magazines, flattened cardboard, glass bottles, aluminum and tin cans, and plastic bottles #1 and #2.

Hours: 10 am to 5 pm - Enumclaw Expo Center

For more information about volume restrictions and other household hazardous waste disposal options visit www.lhwmp.org or call the Household Hazards Line, Monday to Friday 9 am to 4:30 pm except holidays at 206-296-4692 or 1-888-Toxiced (869-4233) Latex paint is no longer considered hazardous waste and the household hazardous waste facilities in King County (the Wastemobile, the Auburn SuperMall Wastemobile, Factoria, and two Seattle sites) no longer accept it.

 **E-Cycle Washington**

Washington has a **FREE** recycling program called "E-Cycle Washington" for computers, computer monitors, laptops, and televisions. Call 1-800-RECYCLE or visit 1800recycle.wa.gov to find authorized E-Cycle Washington collection locations. You may drop off computers, computer monitors, laptops, and televisions at no charge at the following E-Cycle Washington location: Goodwill Maple Valley Store ([27077 MV Black Diamond RD SE, Maple Valley, 253-573-6687](http://27077MVBlackDiamondRDSE.MapleValley.253-573-6687)) and Goodwill Roses IGA Donation Station ([SR 410 & 112th E, Buckley, 253-573-6687](http://SR410&112thEBuckley.253-573-6687)). Please note - drop off locations and charges may change. Please also note that computer peripherals such as keyboards, mice, and printers are not included in this program but will be accepted at the City Recycling Collection Event.

WHAT WE RECYCLE

WE BUY ALL TYPES OF METALS

- Copper
- Aluminum
- Brass
- Titanium
- Lead

Reliable and Professional Recycling Services

Founded in 1995, Ace Metal Company and Mukilteo Recycling Center was created to ensure that Washington's precious resources could be saved and reused for future generations. Recycling is not only good for the environment but is a viable source of income for many people throughout the world.

PICK-UP and COLLECTION EVENTS

- Stainless Steel
- Steel/Iron
- Electrical Wire
- Radiators/Wheels/Electric motors
- Auto parts/Engines/Transmissions
- FREE appliance disposal and drop-off

FREE ELECTRONICS RECYCLING*

- TV's and monitors
- Computers, laptops and servers

SMALL CHARGE FOR RECYCLING

- Printers, copiers and FAX machines
- Keyboards, peripherals and mice
- Video game consoles and cellphones

* Covered Entities can recycle for FREE: Households, Schools, Non-Profits, Small Businesses, Small Governments, and Special Purpose Districts.

REDUCE YOUR COMPANY'S CARBON FOOTPRINT.... RECYCLE ALL OF YOUR METAL AND ELECTRONIC WASTE!

Ace Metal Company and Mukilteo Recycling Center offers a **FULL RANGE** of metal and electronics recycling services.

- Safe and convenient drop-off location.
- Available pick-up service.
- Bin drop-off and pick-up.
- Corporate recycling programs.

*Orphans are brands for which an owner could not be identified or brands that were manufactured by companies that have gone out of business and there are no successors in interest. The

by companies that have gone out of business and there are no successors in interest. The responsibility for managing orphan products is distributed among all identified manufacturers proportionally.

Washington State Electronic Products Recycling Program 2/11/2011

Below is a list of brands that appeared in the Return Share sampling conducted in 2010 for the E-Cycle Washington program that were determined by the Department of Ecology (Ecology) to be "orphans." An orphan is a covered electronic product that lacks a manufacturer's brand, or for which the manufacturer is no longer in business and has no successor in interest, or is a brand for which Ecology cannot identify an owner.

The 65,292 lbs of orphan products accounted for 10.5% of all covered electronic products sampled through the E-Cycle Washington program in 2010. The responsibility for recycling orphan products is distributed proportionally among all identified manufacturers.

Documentation of work done with direct processors used by the Standard Plan to promote and encourage the design of electronic products that are less toxic and contain components that are more recyclable.

In the 2009 Annual Report to Ecology the WMMFA outlined a plan describing collaboration with the NCER and the Green Electronics Council to pursue grant funding for a "Close the Loop" registry with the goal being creation of a one stop clearinghouse that would contain a database accessible by manufacturers and processors that would contain specific de-manufacturing hints covering components and contents of the electronic products they receive. This effort was not successful and no grant funds were received. Based on sampling results on CEP weights for the period 2009 - 2011 the average weights of CEP's have trended downward considerably. Many WMMFA member manufacturers are involved in Dfe and Dfr national or global efforts as the majority of the weight of CEP's covered by the Standard Plan are from manufacturers that also sell nationally and globally. The chart provided illustrates the progress in reducing the overall weight of CEP's currently being produced and sold in Washington and across the country.

Summary comparison WMMFA average product weights - currently for sale					
CEP Type	2009 Average lb.	2010 Average lb.	2011 Average lb.	weight variance % 09 to 10	weight variance % 09 to 11
TV LCD 17-39"	24.4	24.2	19.4	-0.82%	-20.49%
TV LCD Over 40"	78.7	68.6	65.5	-12.83%	-16.77%
TV Plasma 17-39"	42.1	36.2	41.5	-14.01%	-1.43%
TV Plasma Over 40"	108.4	100.8/81.3	66.7	-25.00%	-38.47%
TV Rear Projection>40"	109.4	108.3	87.8	-1.01%	-19.74%
TV Direct View 17-39"	89.6	91.1	84.3	1.67%	-5.92%
LCD Monitor Under 19"	9.8	9.9	10.3	1.02%	5.10%
LCD Monitor Over 19"	15.9	16.5	18.4	3.77%	15.72%
Laptop 3 lbs. and less	2.4	2.5	2.7	4.17%	12.50%
Laptop > 3-5 Lbs	4.1	4.1	4.3	0.00%	4.88%
Laptop >5-7 Lbs	6.7	5.9	5.9	-11.94%	-11.94%
Laptop Over 7 Lbs	10.2	10.3	10.4	0.98%	1.96%
PC-Tower	28	21.3	25.6	-23.93%	-8.57%
All Laptops average	5.9	5.7	5.8	-3.39%	-1.69%
Sum weight all CEP's	535.6	485.9	448.6	-9.28%	-16.24%

Design For Recycling (2009 survey results)

The initial survey put to the Washington state processors that comply with the preferred standard resulted in these observations in order of perceived impact and importance as it

The initial survey put to the Washington state processors that comply with the preferred standard resulted in these observations in order of perceived impact and importance as it pertains to reducing the overall cost to manufacturers for processing, and for the recycling or diversion of a higher percentage of materials of concern.

1. Flat Panels will become a larger percentage of material to be recycled in the future due to the current proliferation of LCD and plasma TV's and monitors being sold now. Processors need an outlet for CRT Glass and LCD screens in order to reduce processing costs to manufacturers.
2. Eliminate multi laminated materials and allow for easy separation of plastics from metals from lamps from glass so that the materials separation cost does not exceed the compensation from recycling the material. Assist in providing buy back opportunities for recovered plastics and other reusable items.
3. New technologies in manufacture of CEP's should allow for more automated dismantling using snap out fittings that may be accommodated by automated processes for dismantling. Identify components containing hazardous materials for easier and more efficient and complete removal and recycling.
4. Removing or reducing lead from glass and circuit boards would reduce downstream processing costs. Reduce or eliminate beryllium, cadmium, mercury and lithium (batteries)

These results were shared with all manufacturers participating in the Standard Plan via the text below in the WMMFA's 4th quarter 2009 Newsletter that included financial and operational information as well.

PROCESSING COSTS - DFR —2010

Each of the processors used by the Standard Plan must comply with the “preferred processing standards” as defined in the “Environmentally Sound Management and Performance Standards for Direct Processors.” A survey sent to the Washington state processors used by the Authority revealed these recommendations in order of perceived impact and importance pertaining to reducing the overall cost to manufacturers for processing, and for the recycling or diversion of a higher percentage of materials of concern.

1. Flat Panels will become a larger percentage of material to be recycled in the future due to the current proliferation of LCD and plasma TV's and LCD monitors being sold now. Processors need an outlet for CRT Glass and LCD screens in order to reduce processing costs to manufacturers.
2. Eliminate multi laminated materials and allow for easy separation of plastics from metals from lamps from glass so that the materials separation cost does not exceed the compensation from recycling the material. Assist in providing buy back opportunities for recovered plastics and other reusable items.
3. New technologies in manufacture of CEP's should allow for more automated dismantling using snap out fittings that may be accommodated by automated processes for dismantling. Identify components containing hazardous materials for easier and more efficient and complete removal and recycling.
4. Removing or reducing lead from glass and circuit boards would reduce downstream processing costs. Reduce or eliminate beryllium, cadmium, mercury and lithium (batteries).

These recommendations, as provided by the participating Washington State Standard Plan processors, are not a new revelation to manufacturers. They are shared with all participating manufacturers as collective information that summarizes some of the obstacles to lowering our (WMMFA) collective processing costs.

Based on feedback from some of the collectors in the WMMFA network (listed in section 2) it is estimated that approximately 4.5% to 6.5%, by weight, of the total CEP pounds collected for 2010 (39.5 million) is put into re-use as fully working components. The highest amount of re-use by weight is estimated to be televisions (6-8%) followed by computers (4-6%) followed by CRT monitors (1-3%). This estimate is based upon non-scientific data from several of the non-profit (reuse- retail) collectors.

This report was prepared per WAC 173-900-800 and submitted using the template provided by Ecology (converted to workbook)

The information within this report/workbook was compiled using sources available to the WMMFA including actual and estimated data from service providers to the WMMFA as outlined in the Standard Plan.

Submitted electronically on February 25, 2011 to Miles.Kuntz@ecy.wa.gov

Authorized signor WMMFA
John Friedrich, Executive Director

A handwritten signature in black ink, appearing to read "John Friedrich". The signature is written in a cursive style with a prominent loop at the end of the last name.
