Landscape Problems

Healthy Lawn?

Healthy Soil?

What the homeowner doesn't see

Will 2" of topsoil support a healthy landscape?

A living soil is the key

Who applied the fertilizer?

Disrupting the cycle

Compost Tea

Healthy Soil = Healthy Landscape

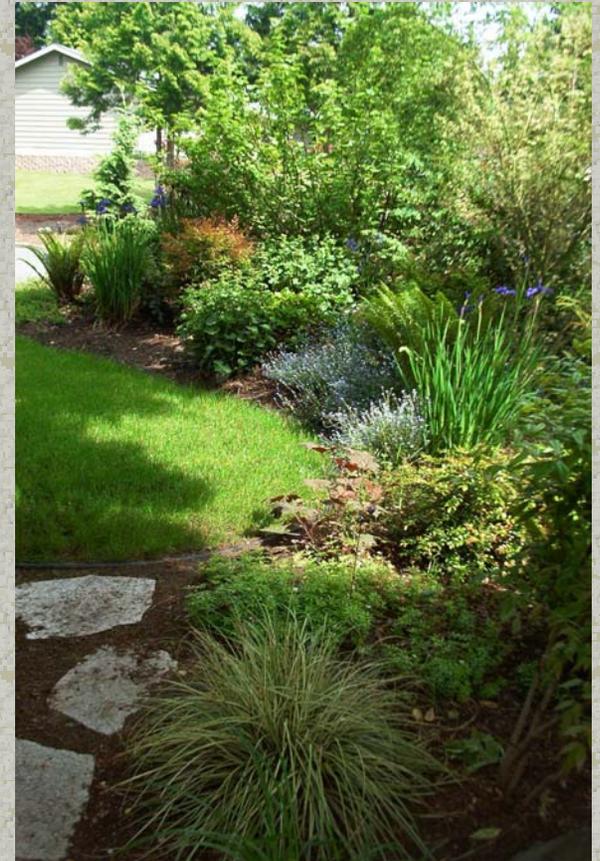

Right Plant, Right Place

- Exposure
- Mature size
- Water needs
- Soil needs
- Pest/Disease resistance
- Hardiness
- Invasiveness

Low Maintenance Landscaping

- Good design
- Right plant, right place
- Limiting exposed soil
- Groundcovers
- Expect establishment period to be high maintenance .

Natural landscape?

It's not impossible!

Mow and Blow

Where to meet most landscapers....and
even a few homeowners
