HAZARDOUS MATERIAL / WASTE	QUANTITY

The hazardous materials listed above are currently being stored without secondary containment. The Thurston County Nonpoint Source Pollution Ordinance, Article VI of the Thurston County Sanitary Code, Section 4.1(b) states:

“Moderate risk waste, petroleum products, and hazardous materials shall be kept in containers and shall be stored in such a manner and location that if the container is ruptured, contents will not discharge, flow, be washed or fall into surface water or groundwater. This does not supersede any regulations as stated in the Uniform Fire Code.”

Since your business is participating in a technical assistance campaign, a mutually agreeable grace period is being provided to help you obtain compliance. To obtain compliance your business can choose to dispose of the existing hazardous material or place its container into secondary containment.

Four secondary containment options will satisfy Thurston County regulatory requirements.

- 1) Store indoors on a liquid-tight floor *if* the storage area is able to contain 100 percent of the largest container and prevent it from flowing out of the building.
- 2) Store in **covered** secondary containment that can hold 110 percent of the volume of the largest container *or* 10 percent of the total volume stored, whichever is greatest, plus the displacement of any items inside the containment.
- 3) Store in **uncovered** secondary containment that can hold 120 percent of the volume of the largest container *or* 10 percent of the total volume stored, whichever is greatest, plus the displacement of any items inside the containment.
- 4) Store in UL-certified double-walled storage tanks.

Secondary containment to be provided by (date): _____
